

Heager Telescope

- Straight Forward Telescope 0 degree, diameter 2.8 mm, length 44 cm, autoclavable , fibre optic transmission incorporated.
- Straight Forward Telescope 0 degree, diameter 5.5 mm, length 50 cm, autoclavable , fibre optic transmission incorporated.

Bronchoscopes Sheath

- Bronchoscopes Sheath- Length- 40 cm
- Bronchoscopes Sheath- Length- 43 cm

Telescope Bridge

Telescope Bridge- Telescope Bridge for fix position between Telescope

Optical Forceps

Optical Forceps, with alligator jaws, for the controlled grasping of hard foreign bodies, with force-limited handle, incl. cleaning adaptor, for use with Telescope

Optical Forceps, 2 x 2 teeth, for the controlled grasping of coins and flat foreign bodies, with force-limited handle, incl. cleaning adaptor, for use with Telescope

Optical Forceps, with KILLIAN bean jaws, for the controlled grasping of peanuts and soft foreign bodies, with force-limited handle, incl. cleaning adaptor, for use with Telescope

Suction Tube

Suction Tube, with rubber tip, straight, outer diameter 4 mm, working length 50 cm

HD 8866 Full HD Camera with CMOS sensor

- LCD Screen with Touch panel
- HD Technology with SINGLE CMOS Sensor
With 3 programmable keys on coupler With Zoom Facility
- High Resolution, High Tech, Highly Sensitive Digital Sensor
- Native Resolution :1080X1920 & Aspect Ratio 16:9
- Progressive Scan Technology
- Output:DVix1, AV, S-VHS
- Latest Digital Matrix Processor
- High quality color reproduction.
- Edge to Edge clarity with Optimum depth of focus
- Focusable Coupler & Soakable Camera Head.
- Automatic High Speed Shutter.
- Automatic white balancing for all light source
- 3.00 meter highly flexible camera cable.
- Adaptable to all rigid endoscopes
- Adaptable to flexible endoscopes (Optional)

Cold LED Light Source 5.6" Colour LED Screen

- LED (equivalent to 300W Xenon)
- 400 Watts with extra cooling facility
- Color Temperature > 6900 ° K
- Recommended Lamp life 60000 hours
- Electronical IRIS
- Automatic over temperature protection
- Adjustment of the light intensity
- Adjustment of Touch screen LCD Brightness
- Along with Digital Meter for lamp life
- Diameter 4.8mm fibre optic channels

Fibre Optic Cable

- Diameter- 4.8mm
- Length - 2300 mm
- Autoclavable Fiber optic Cable
- Metal / Ribbon Fibre branded
